1. PREAMBLE

The current rules and regulations aim to ensure the smooth running of the school and security of primary school users (elementary and kindergarten). Everyone is asked to respect them and to ensure they are respected by all. Enrolment at the LFKL requires unreserved support of the current rules and regulations.

2. ADMISSION AND ENROLMENT

The main goal of the LFKL is to provide schooling for children of French nationality. Non-French children are accepted where places are available. For non-French pupils admitted, whose knowledge of French appears insufficient, there will be a specific project to meet their needs.

The Management handles admission, on presentation by the family of: the family information report, the health booklet stating that the child has had the necessary vaccinations for their age, end of term report with admission to the next class and a student's release form from the previous school.

Admission is only confirmed upon receipt of registration fees and where places are available.

Each year, at the beginning of the school year, the LFKL defines the pedagogic structure of the elementary and kindergarten classes according to the numbers and the children's age group classes.

ADMISSION TO THE KINDERGARTEN

Children aged 3 as at 31 December of the current year may be admitted to the Kindergarten in the *Petite Section*.

To be admitted to the Kindergarten, a child must be in good health and have the necessary maturity and independence acceptable to the Management at enrolment and in the following days. The child must be toilet trained.

Children aged over 6 as at 31 December of the current year may be admitted to the elementary school.

Where places are available, some children may be accepted from the age of 2 in the *Toute Petite Section* if they are capable of following the rhythm, at the discretion of the teaching team and the Management and if they are toilet trained. The first enrolments will be those born at the beginning of the year.

3. ATTENDANCE AND SCHOOL OBLIGATIONS

Enrolled pupils must take part in all activities corresponding to their schooling organized by the establishment and complete the tasks related to them.

3.1 THE KINDERGARTEN

Enrolment in the kindergarten demands commitment by the family and **regular attendance**.

If the child fails to attend regularly, they may be removed from the enrolment list and will be sent home to their family by the Management.

3.2 THE ELEMENTARY SCHOOL

Regular attendance in the elementary school is **compulsory**, in accordance with **the school calendar** and the legislation currently in force.

3.3 ABSENCES

Absences are recorded, every half-day, in a specific register kept by the teacher.

3.3.1 **Families** are required to inform the school of the exact reason for the absence immediately, and in writing when the pupil returns.

3.3.2 **A medical certificate** must be presented for an absence of more than 4 days. If it concerns a contagious disease, parents must let the school know as soon as possible. In this case, a certificate declaring non-contagion is required on the pupil's return (see 5.2.2).

3.3.3 A letter in advance is required for **planned absences** by the parents. Authorization for absence is given by the Management in exceptional circumstances, on written request by the parents.

3.3.4 **Any absence** without legitimate reason or valid excuse is recorded in the record booklet or on the report.

3.3.5 The **only legitimate reasons** concern the following: a child's illness, communicable disease or if a family member is contagious, exceptional family events, absence resulting from accidents in communication, exams and religious festivals.

3.3.6 **Lessons** are not made up nor given for non-legitimate absences.

3.3.7 **Any child** being unable to attend Physical and Sports Education classes must be provided with a dispensation: a note from the parents for one lesson, a medical certificate for extended non-participation.

SCHOOL LIFE

4.1 OBJECTIVES

Student life and teachers' work practices are organized to ensure the attainment of fixed objectives as per article 1 of decree No. 90-788 of 6 September 1990 and decree no. 2008-463 of 15 May 2008. Teachers must refrain from any behaviour, gesture or word which translates into indifference or contempt towards a pupil or their family, or which may wound the sensibilities of the children. Pupils and their families must refrain from any behaviour, gesture or word which could undermine the role or the person of the teacher or the respect due to their fellow pupils or their families. Similarly, pupils and their families must not be subjected to any discrimination, in particular regarding race, colour, sex, language, religion, nationality or social origin, financial circumstances, birth or any other situation.

4.2. DISCIPLINARY ACTION

4.2.1. Kindergarten

No punishment may be given. Segregation is the only sanction permitted, under supervision, of a child displaying temporarily problematic behaviour and only for the time necessary for them to revert to behaviour compatible with the group.

4.2.2 Elementary School

The teacher or the Cycle's pedagogic team has a duty to help the children achieve to the best of their abilities. All corporal punishment is strictly forbidden. A child may not be deprived of all recreation time as a punishment. Breaches in behaviour regarding rules and regulations of the school, and in particular, any physical or moral attack on other pupils or teachers, may result in reprimands which may if necessary, be made known to the families. If the child's behaviour is problematic or dangerous to themselves or others, they may be segregated from the rest of their class, for

a

short time and under supervision. In the case of particularly serious problems affecting the behaviour of the pupil in their school environment, the situation must be submitted for investigation by the educational team, according to article

21 of decree No. 90-788 of 6 September 1990.

4.3 PEDAGOGIC ASSESSMENT

4.3.1 **The parents** receive a computerized report 3 times a year for the elementary classes, and twice a year for the kindergarten in the form of a learning record booklet. A summary of learning acquisitions completed by the Cycle 1 educational team is sent to the elementary school on the student's admission in the first year of cycle 2, and sent to the student's parents or legal guardian. **At the end of cycle 2 (CE2)**, a record sheet provides an overall assessment of the 8 elements of the Common Base using a simple grading system: insufficient command, weak command, satisfactory or very good. The parents must **sign the periodic reports on line**. The last report will be given upon request in paper form for information and signature. Should the student be leaving the school, the computerized reports will be kept at the LFKL for a year.

4.3.2 Progression to the next class and orientation

Progression to the higher cycle, extending or reducing time in the cycle, are decided by the Teacher's Meeting of the cycle in progress. The length of time a pupil spends in cycle 2 or 3 can be extended or reduced by a year and one year only. Orientation requests during the year will be examined by the educational cycle team and if necessary the school psychologist.

4.3.3 Appeal

Where there is disagreement between the family and the advice of the Cycle Council, the family can refer the matter in writing, within a week of reception of the recommendation from the Council, to the Appeal Committee, chaired by the

Cultural Counsellor at the French Embassy (or a deputy appointed by them).

4.4 CODE OF CONDUCT IN THE SCHOOL

4.4.1 Movement in and around the school premises, recess time

Congregating at the beginning and end of classes, moving to different areas in the school premises must take place in an orderly, calm and disciplined manner, under the responsibility of the teachers. School photography or film is present in our school, whether it concerns the traditional class photo or school activities in different forms: workbooks, posters in the class, school newspapers, the website the Year Book or more exceptionally in a restricted multimedia support (an art or cultural project, school trip...)

It enables us to:

- give information on projects or educational activities (school trips, artistic and cultural school correspondence...)
- exploit events and visits (festivals, shows, sporting activities, different excursions...)
- motivate the students and acknowledge the value of their work, showing them in a school situation, in activity, always in a positive light,
- help conserve memories of school friends and time spent at school through class photos.

The school naturally forbids the use of any photography or film that could infringe upon the dignity of a child or their parents. Therefore and unless otherwise stated and strictly in keeping with the values described above, it is assumed that the parents have authorized the school to use photographic or video representation of their child.

The family, may at any time, and in writing addressed to the Management of the LFKL, refuse the use of an image of their child.

This does not concern acute diseases. Medications are stored in a safe place. It is not possible for the child to have access to them alone.

5.2.2 Suspension
