

SECONDARY SCHOOL RULES AND REGULATIONS

PREAMBLE

The LFKL is a working community in which everyone participates in a collective educational *oeuvre* in the widest sense of the term: relationships between the members it comprises (parents, students and the different personnel) are based on collaboration and mutual respect. All members of the school community will strive to:

- abstain from any propaganda incompatible with secularism, political and religious neutrality,
- condemn all physical and moral violence,
- respect the property of others as they would their own, tolerate and respect the personality and beliefs of others.

The rules and regulations of the LFKL are in accordance with the principles of law n°89-456 of 10 July 1989 referred to as the Education Framework Law (*loi d'orientation sur l'Education*) and the Framework Law (*loi d'orientation*) n°2005-380 of 23 April 2005.

The students' obligations lie in accomplishing the tasks inherent in their studies, and include regular attendance and respect for the rules governing the running of the school and school community life. In secondary schools, the students, while respecting pluralism and neutrality, are afforded freedom of information and speech. The exercise of these freedoms must not interfere with teaching activities.

Every student needs to feel fully responsible for their attitude. The current rules and regulations have the sole aim of helping the student understand this responsibility. The few restrictions that it lays down are those that individual good manners and the smooth working of a community dictate.

General Points

The LFKL's first aim is to provide schooling for French children. Non-French children are admitted where places are available.

Admission, at all levels, is only confirmed upon receipt of registration and school fees.

The LFKL provides direct teaching in all classes for the *series* or Baccalauréat categories and open specialities. Enrolment at the LFKL requires unconditional compliance with the current rules and regulations, all regulations defined by the management body of the school and a commitment to respect them.

Enrolment and Student's Release Form

Admission

The Principal of the LFKL admits the student upon the family's presentation of the following:

- Record of Civil Status or Family Information Report,
- certificates stating that the child has had the necessary vaccinations for his or her age (health booklet), the student's release form, provided to parents by the Head of the previous school,
- the student's school report, confirming admission to the next class.

Regular attendance at the LFKL is compulsory in accordance with current legislation and regulations.

Release form

When a student is leaving the school, during the year or at the end of the year, parents must inform the Management as early as possible in order for them to prepare the student's release form, the school records which will accompany the student throughout their schooling. These school records will be sent to the new school or sent to parents by recorded delivery.

Medical Visit -Illness-Exclusion from School

Medical Visit

A medical visit is organized several times over the course of the child's schooling in accordance with current regulations. Students cannot decline to attend health tests and examinations intended for them.

Medicines

The use or distribution of medicines is forbidden at the LFKL (except for Paracetamol or antihistamines authorized by parents).

In the case of long-term treatment, an agreement will be established between the family and the school.

So as to protect the children from contagious illnesses, the exclusion conditions established by the Ministry of Health will be applied. Parents are responsible for informing the teacher immediately if a child has contracted one of these illnesses.

Accidents

Should a student be taken unwell suddenly or be involved in an accident, the teacher or the person on duty is required to alert Student Support Services immediately, the Head of Student Support Services (*CPE*) and the Management.

The family will be contacted immediately by telephone and informed of the action taken.

Should a serious accident occur, the student will be evacuated by ambulance to the nearest or most appropriate hospital.

They will be accompanied by a member of Student Support Services until the arrival of one of the student's parents.

The LFKL covers all enrolled children with third party insurance for school activities and after-school activities, strictly within the school context.

Each student benefits from CGEA's international individual school insurance coverage.

Canteen and School Transport

-A canteen service is provided by SHF. The canteen is compulsory to the end of Troisième. A student who is not using the canteen is therefore considered "external".

Packed lunches are not permitted (except when authorized by the Principal for medical reasons duly justified).

In the case of non-registration at the canteen, the charge for a meal taken on a one-off basis will be RM25.

- A school transport service is available. Registration is made through the LFKL bus department: bus@lfkl.edu.my
